ABOUT US

YOUR VISION - OUR CRAFT

For nearly 30 years, Yokor Windows has been a trusted name in the premium aluminium window and door industry-defined by innovation, craftsmanship and architectural precision. Since 2007, we've focused exclusively on the Australian market, delivering custom-designed systems tailored to local standards, climate conditions and evolving design expectations.

All our products are thoughtfully engineered and meticulously crafted, offering the design flexibility and enduring quality that leading architects, premium builders and discerning homeowners demand. With thousands of successful residential and commercial projects across Australia, we bring deep technical expertise, attentive service and decades of proven experience to transform ambitious architectural concepts into built reality-seamlessly and confidently.

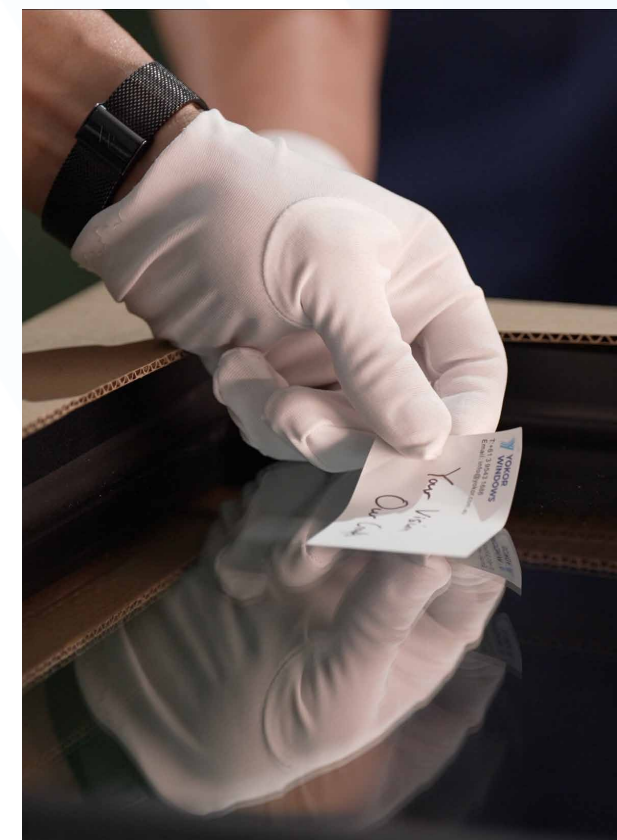

'Experience aluminium solutions
where aesthetics, precision and performance
meet - backed by service that customers can rely on.'

WHY YOKOR

01

BUILT AROUND YOUR ARCHITECTURE.

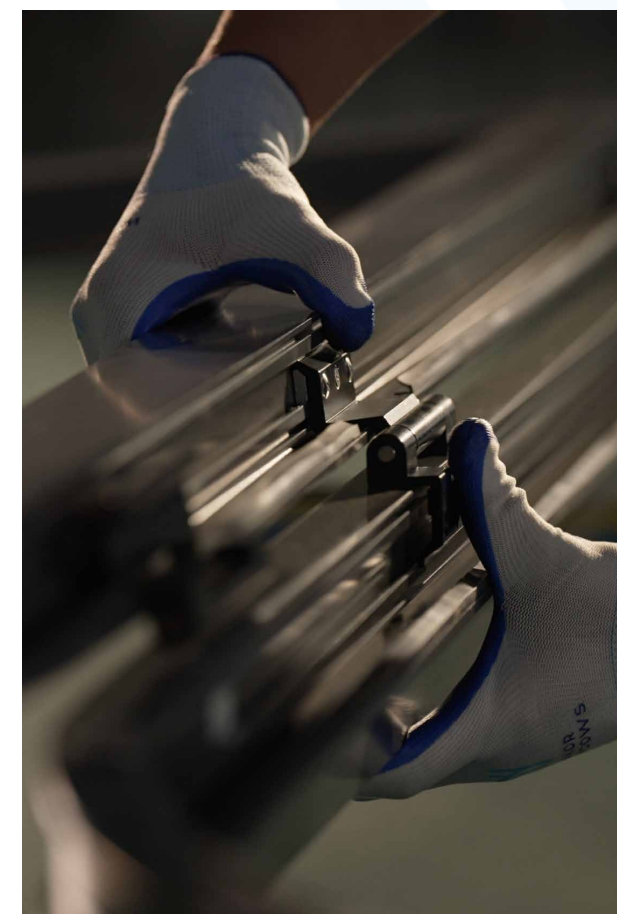

Every project presents its own architectural vision, performance requirements and technical challenges. Our continuous investment in research and development, a dedicated in-house engineering team, and our wholly owned manufacturing facility give us the flexibility to develop project-specific systems tailored to each project. The result is solutions that remain true to the original architectural vision, without compromise.

02

CAPABILITY REFINED OVER TIME.

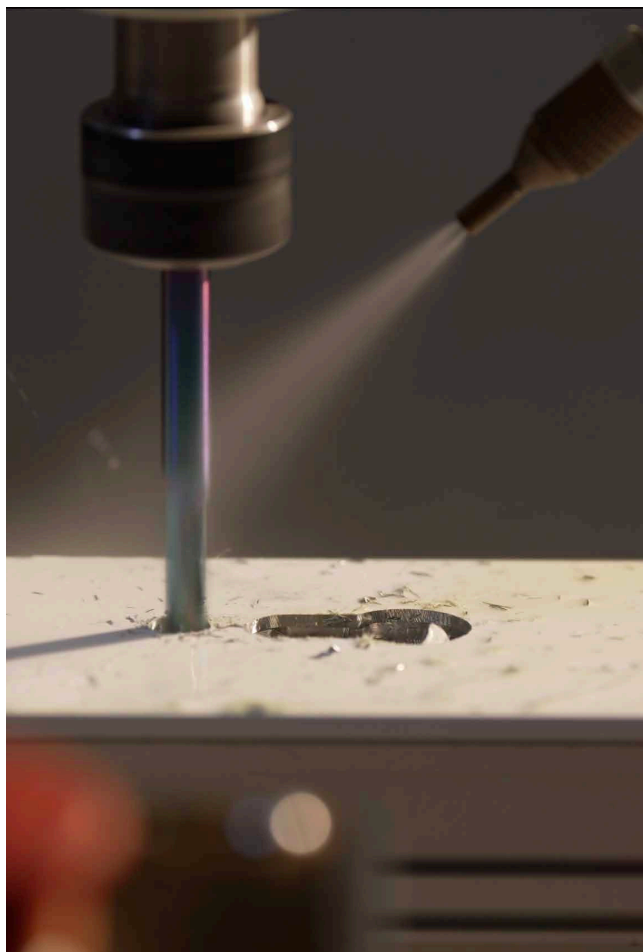

True capability isn't built overnight. With nearly 30 years of engineering expertise and thousands of completed projects across Australia, we've developed the knowledge, technical capability and practical insight to deliver with confidence. Every challenge solved, every detail refined and every project completed strengthens our capability to deliver the next.

03

ONE TEAM. TOTAL ACCOUNTABILITY.

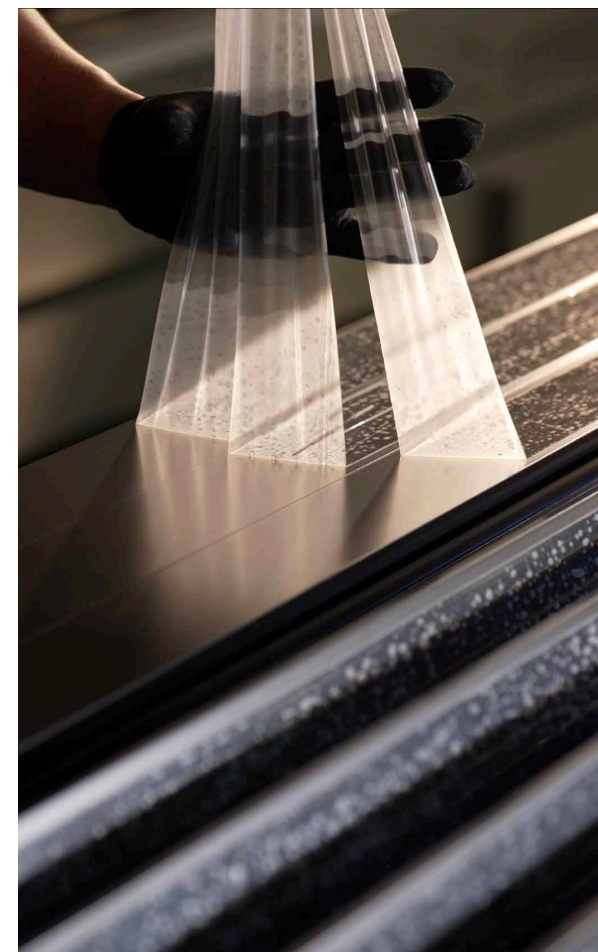

Exceptional projects require more than exceptional products—they require complete accountability. From research and development and engineering through to manufacturing, installation and after-sales support, every stage remains under the Yokor team. With one point of contact throughout the entire journey, communication is streamlined, quality remains consistent and responsibility never changes hands.

04

ENGINEERED FOR AUSTRALIA.

Since 2007, we've focused exclusively on the Australian market, developing systems designed for Australian architecture, built to Australian standards and proven to perform in Australian conditions. From structural performance and thermal efficiency to weather resistance and energy compliance, every Yokor system is engineered to meet the demands of Australian homes and buildings.

05

ARCHITECTURAL CONTINUITY.

Great architecture is defined by consistency. From window and door systems to battens, shrouds, privacy screens, balustrades and bespoke aluminium elements, Yokor offers a complete range of architectural products designed to work together as one coordinated architectural language. The result is greater design flexibility, visual continuity and a cohesive architectural outcome, with the simplicity of sourcing everything from a single trusted supplier.

02

PRODUCT RANGES**VUE SERIES.****REDEFINING MINIMALISM**

Where less becomes more, the YOKOR VUE Series is our modern minimalist range-ultra-slim, high-performance and redefined not just in appearance, but in how it performs, adapts and inspires.

MANOIR SERIES.**EUROPEAN ELEGANCE**

Timeless in form and refined in function, the YOKOR MANOIR Series brings European-inspired elegance to life-where classic detailing meets engineered performance.

SLIDING RANGE.**EFFORTLESS STRENGTH**

Effortless to glide and built to endure, YOKOR sliding systems combine refined engineering with powerful performance-delivering smooth, seamless movement even on oversized panels.

BEYOND WINDOWS.**ARCHITECTURAL ACCENTS**

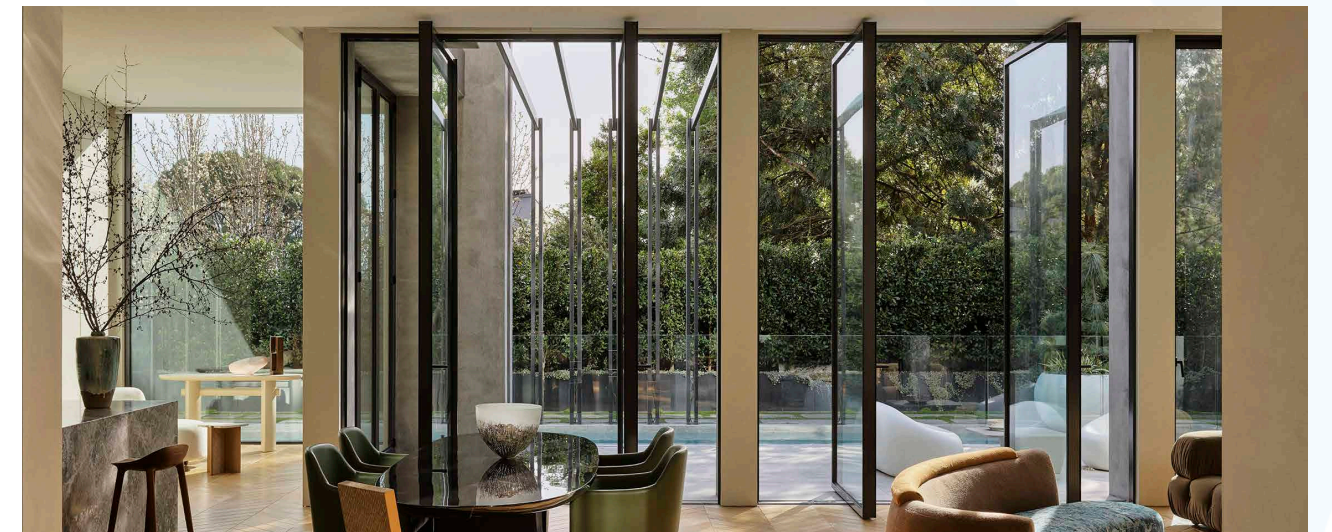

Beyond glazing, YOKOR's architectural elements-shrouds, screens, battens and balustrades-enhance form, add depth, and ensure seamless integration across every design detail.

YOKOR VUE SERIES

REDEFINING MINIMALISM

Minimalism is no longer a trend—it's the defining language of modern residential architecture. The YOKOR VUE Series is our flagship slim-frame system, purposefully developed in-house to meet the growing demand for expansive glazing, clean lines, and seamless indoor-outdoor flow in high-end Australian homes. Engineered to strictly comply with Australian standards, the YOKOR VUE Series achieves ultra-slim sightlines—even on oversized panels—through thickened profiles and reinforced structural design. Paired with the Yokor Slim Sliding Door system, it offers a complete solution that unites refined aesthetics, performance, and creative freedom.

Beyond aesthetics, YOKOR VUE Series delivers industry-leading thermal efficiency. Our thermally broken systems exceed NCC energy requirements, helping projects meet or surpass 7-star standards — without compromising architectural intent.

HIGHLIGHTS OF THE YOKOR VUE SERIES

MINIMAL BY DESIGN. POWERFUL BY NATURE

01 REINFORCED PROFILES

Reinforced profiles ensure structural integrity at scale.

02 DESIGN FLEXIBILITY

Available in 55mm, 74mm and 95mm profiles for maximum design flexibility.

03 LARGE GLAZING

Ultra-slim frames engineered to also achieve large-format glazing.

04 REAL MINIMALIST

Integrated sliding and sashless systems for a complete minimalist palette.

YOKOR MANOIR SERIES

EUROPEAN ELEGANCE

Built upon decades of proven European window system principles and engineered by YOKOR for the Australian market, YOKOR's MANOIR Series has been setting benchmarks in classically inspired architecture across Australia for years. It blends timeless European aesthetics and operability with the performance today's homes demand — delivering elegance without compromise.

Available in both semi-commercial and commercial-grade configurations, YOKOR Manoir Series offers limitless layout flexibility and elegant detailing — ideal for even the most ambitious European-style projects.

From colonial bars to timber-inspired arched casements and tilt-turn openings, every detail is crafted to evoke sophistication — without sacrificing structure, durability or energy performance. Precision-engineered cavity profiles, self-drainage, dual sealing, and seamless mitred corners ensure long-term reliability with refined visual appeal.

HIGHLIGHTS OF THE YOKOR MANOIR SERIES

CLASSIC BY DESIGN. BUILT TO ENDURE.

01 CAVITY-PROFILE DESIGNS

With integrated drainage and dual-seal weatherproofing.

02 EUROPEAN-STYLE ELEMENTS

Compatible with colonial bars, tilt-turn systems and custom arched configurations.

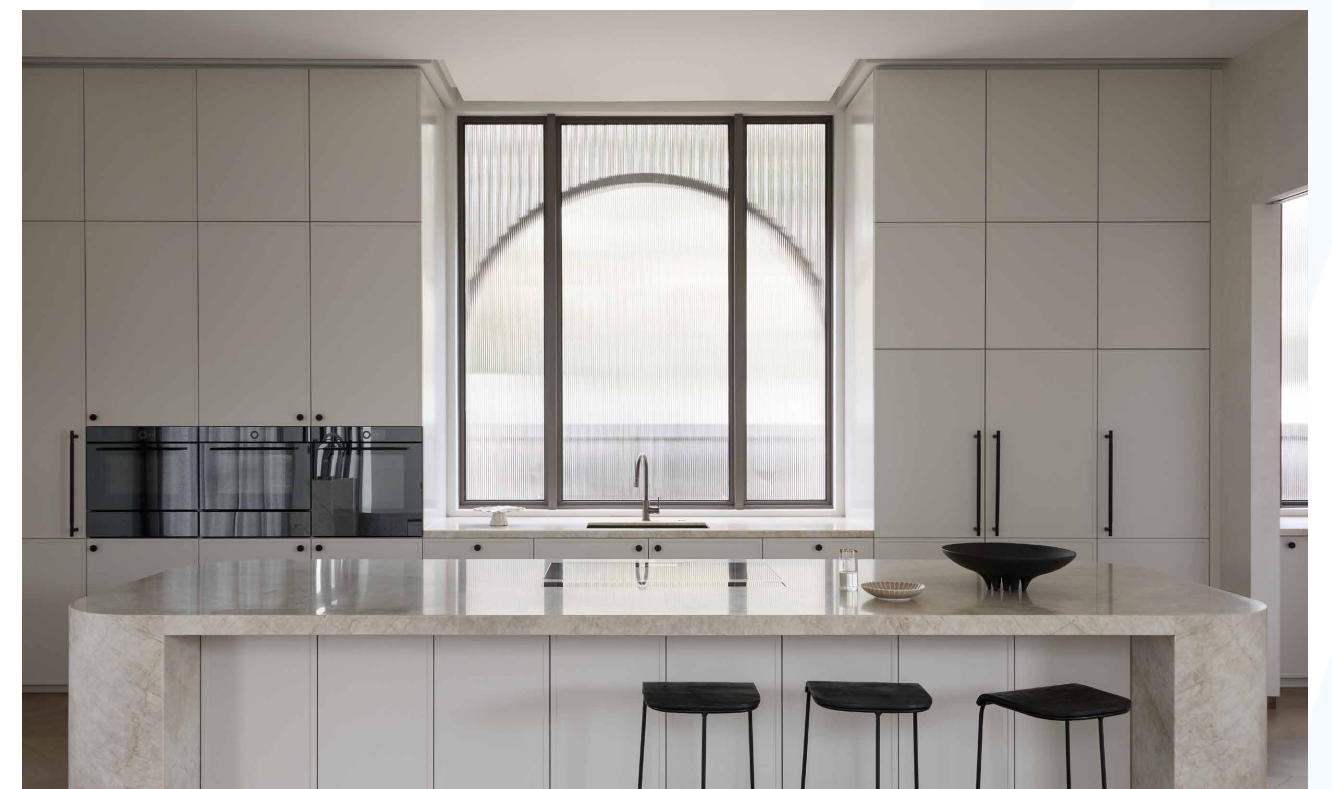

03 BESPOKE DETAILING

Compatible with designer or European-style hardware for bespoke detailing.

04 AUTHENTIC EUROPEAN ORIGINS

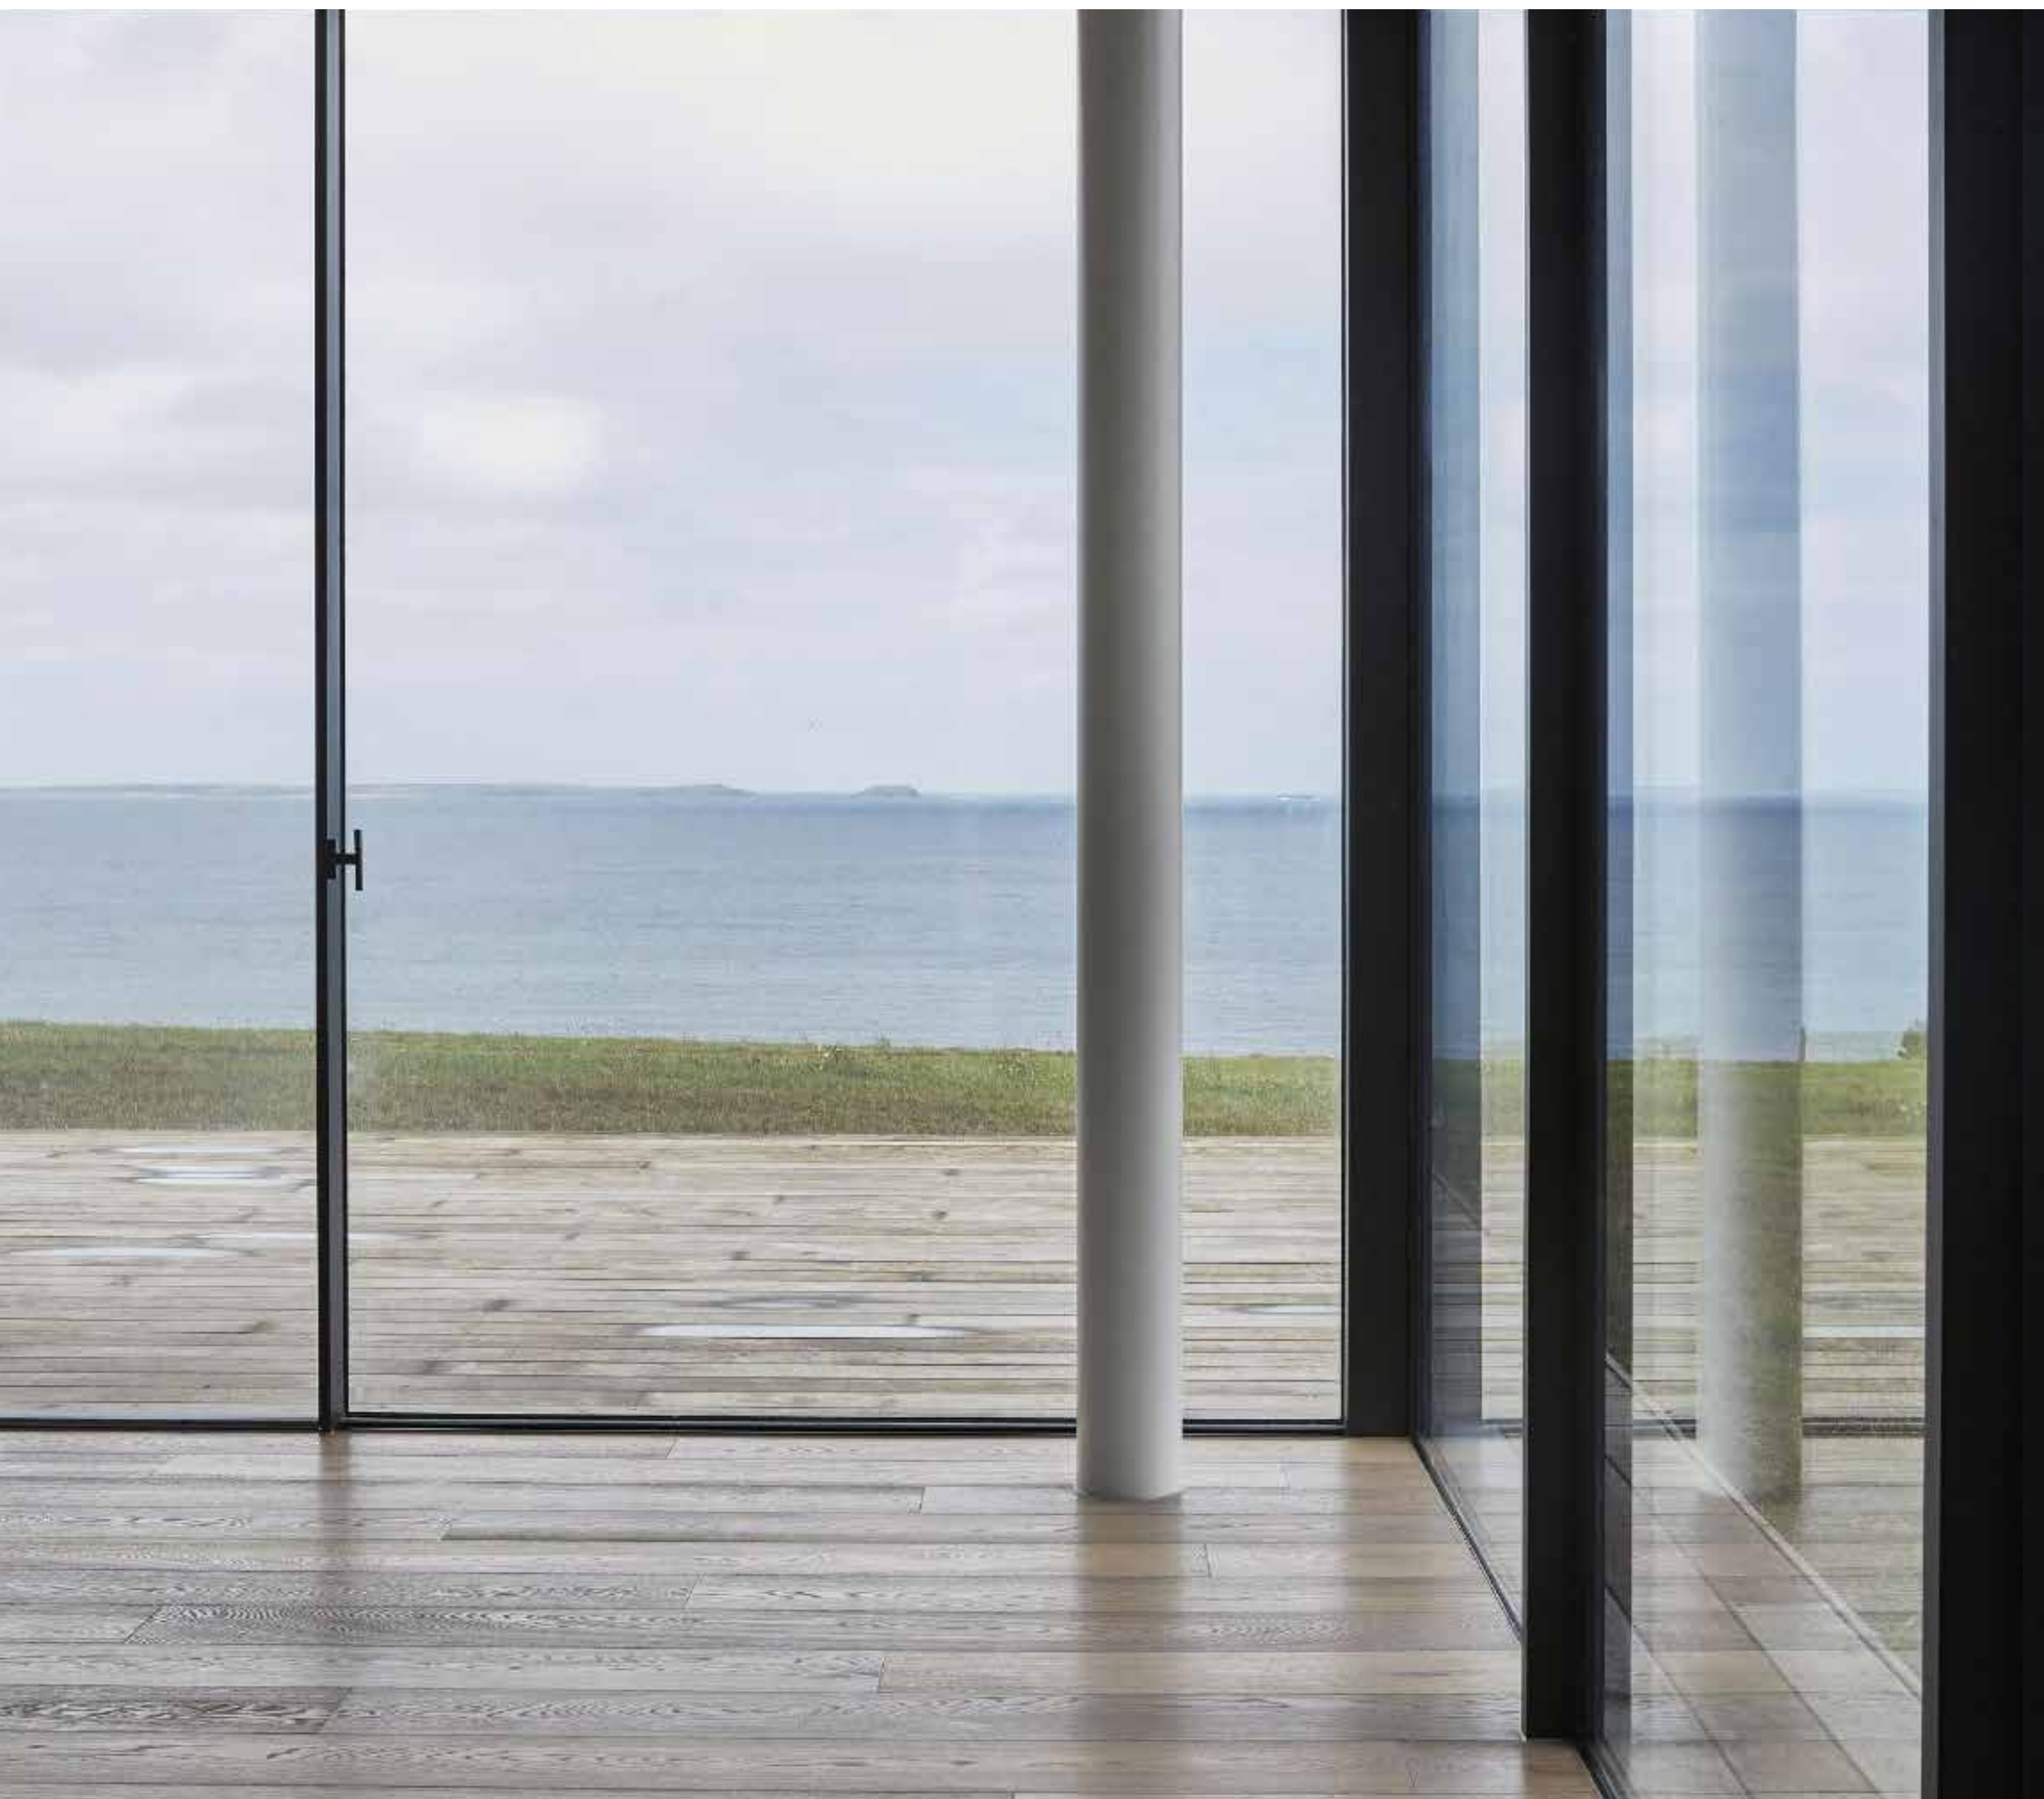

European heritage, refined through decades of local adaptation to Australian conditions.

YOKOR SLIDING RANGE

At YOKOR Windows, we believe in effortless luxury. Our sliding systems are engineered around the “one-finger operation” principle-delivering one of the smoothest, most seamless sliding experiences in the industry, even on oversized panels.

From minimalist slimlines to expansive glazed spans, YOKOR SLIDING RANGE balances architectural vision with technical reliability-delivering refined solutions across residential and commercial projects.

Each system is custom-made to meet exact project requirements, enabling a true zero-threshold design that merges indoors and out. With industry-leading sealing technology, thermally broken options, and reinforced structural profiles, all of YOKOR’s sliding systems offer smooth, controlled movement and robust structural performance-capable of withstanding harsh weather, high wind pressure, and extreme structural demands.

YOKOR SLIDING SYSTEMS

01 COMMERCIAL SLIDING SYSTEM

Size Meets Affordability

02 LIFT SLIDING SYSTEM

Strength, Control & Complete Sealing

03 SLIM SLIDING SYSTEM

Ultimate Minimalist Masterpiece

YOKOR SLIDING RANGE- AT A GLANCE

Feature/System	Commercial Sliding	Lift Sliding	Slim Sliding
Panel Size Capability	Up to 5.8 sqm	Up to 8.0 sqm	Up to 8.0 sqm
Track Options	2 / 3 / 4 - track	2-track	2 / 3 -track
Meeting Stile Width	86mm	105mm	20mm ultra-slim
Glazing Details	6-31mm	6-35mm	38mm
Operation Type	Standard Slide	Lift-slide with drop-to-lock anywhere	Smooth glide
Visual Impact	Practical Elegance	Solid, premium presence	Minimalist, View-maximising
Rebate Option	Yes	Yes	Yes
Concealable Frame Option	No	No	Yes
Integrated Drainage Option	No	No	Optional
Recommended Use	Cost-effective solution for wide openings and performance-driven builds	Projects requiring smooth operation, lock-anywhere control, and weather resistance	High-end, view-driven architecture with a focus on minimal obstruction

COMMERCIAL SLIDING SYSTEM

Engineered for versatility and value, the YOKOR Commercial Sliding System is ideal for large-scale applications without compromising performance or affordability. Available in 2, 3 and 4 track configurations, it supports panels up to 5.8 sqm each, making it possible to create expansive doorways of up to 46 sqm, all at an exceptionally competitive price.

LIFT SLIDING SYSTEM

Purpose-built for large, heavy panels and high-performance applications, the YOKOR Lift Sliding System delivers exceptional strength, precise control, and superior air, water, and structural sealing.

What truly sets it apart is the exceptionally smooth sliding experience — made possible by German-engineered lift hardware that allows panels to glide effortlessly, even at maximum size. It's the smoothest lift-sliding door you can imagine — designed to impress from the first touch. Once positioned, the panel drops to lock securely at any point along the track, offering flexible ventilation, access, and peace of mind.

SLIM SLIDING SYSTEM

Engineered for refined, view-centric architecture, the YOKOR Slim Sliding System features an ultra-slim 20mm meeting stile-among the narrowest available in Australia. It minimises visual distraction while enhancing light, openness and spatial flow.

With concealable frame options and an optional integrated drainage with grates, YOKOR Slim Sliding system delivers a truly seamless transition between indoors and out. Available in 2 and 3 track configurations, it's ideal for luxury homes, boutique commercial projects, and any space where performance must match design intent.

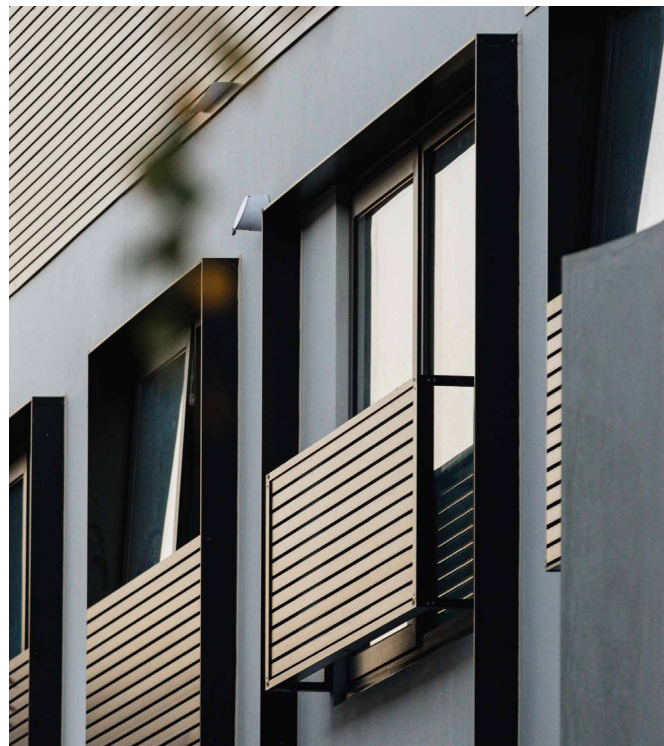

BEYOND WINDOWS

ARCHITECTURAL SHROUDS,
SCREENS, BATTENS & GLASS BALUSTRADES

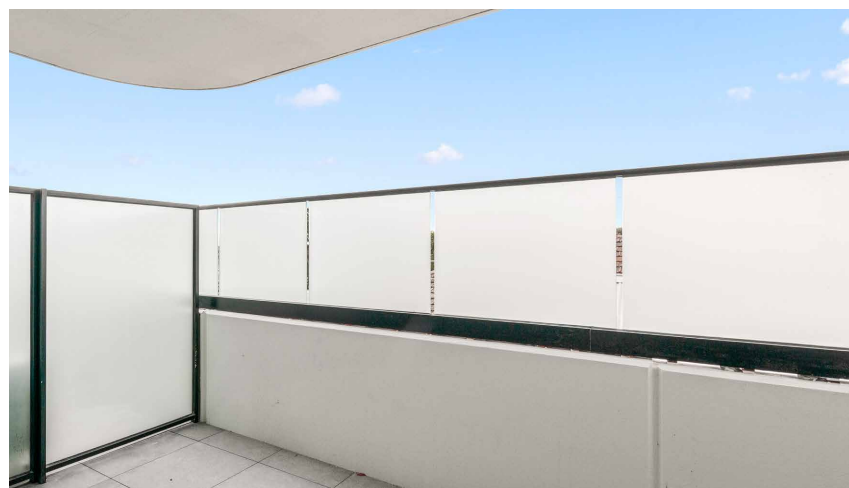

YOKOR offers more than premium windows and doors — we also provide a curated range of architectural aluminium elements designed to elevate shade, privacy, and architectural design expression. Tailored for seamless integration with our glazing systems, these components ensure continuity in detail, finish and form — delivering the performance and refinement expected in high-end residential and boutique commercial projects.

Privacy, Rhythm And Design Control

COLOUR & FINISH OPTIONS

At YOKOR, we believe colour is more than a surface finish — it's an integral part of architectural storytelling. That's why all our aluminium systems feature high-performance, powder-coated, and anodised finishes available in a wide array of colours and textures to complement any design vision.

COLOUR WITHOUT COMPROMISE — DESIGN WITHOUT LIMITS

01 50+ COLOURS & FINISHES

Our range includes over 50 carefully curated tones. For coastal applications, we offer AAMA 2604-grade powder coatings for superior resistance to UV, corrosion, and sea salt.

02 DUAL-COLOUR FINISHES

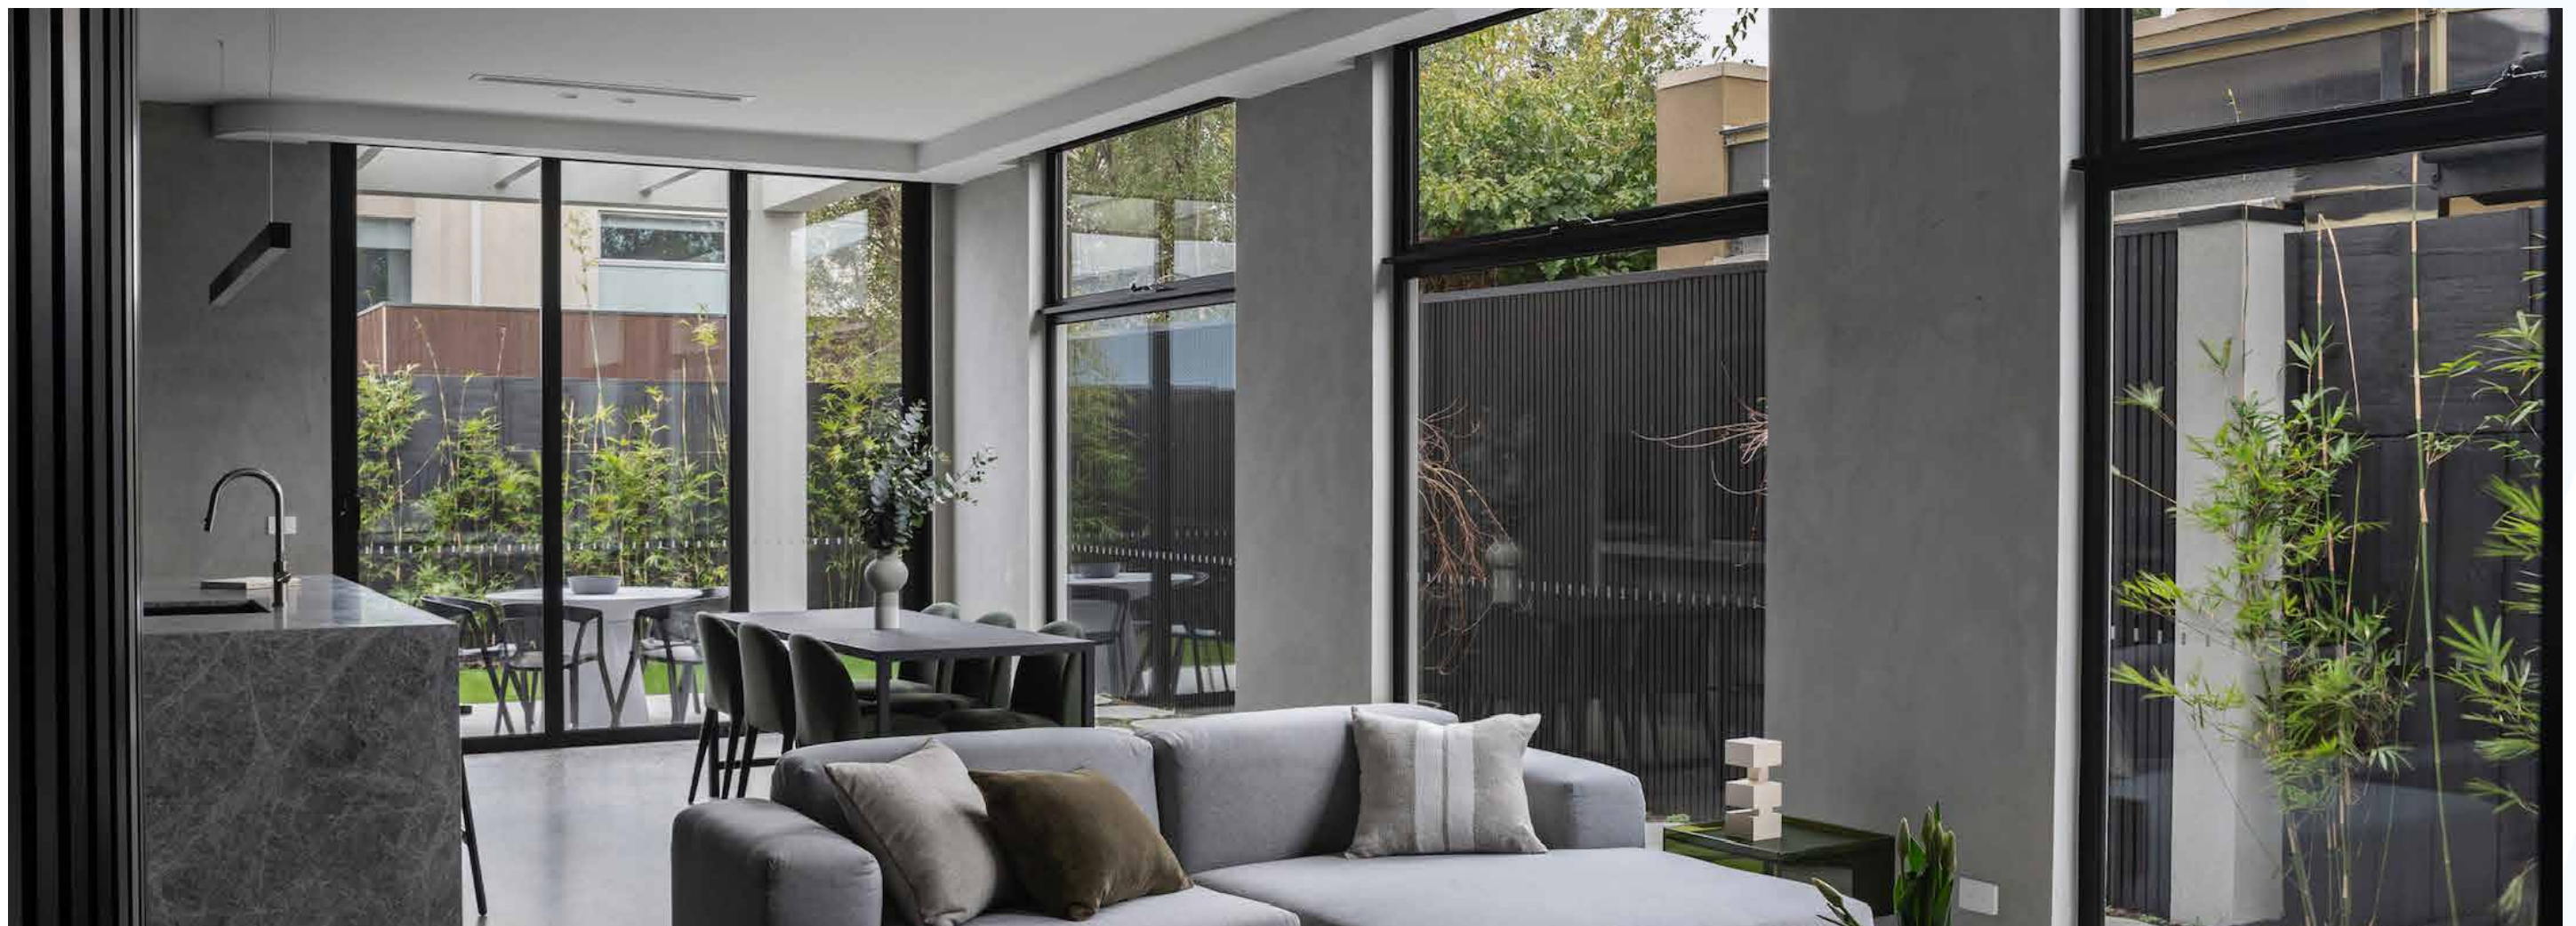

For thermally broken profiles, we also offer dual-colour options-allowing you to specify different interior and exterior finishes for enhanced design flexibility.

03 EXCLUSIVE DESIGNER METALLICS

Elevate your project with our premium metallic range-featuring finishes like Medium Bronze, Dark Bronze and Champagne Kinetic. These are ideal for adding contemporary distinction to luxury builds.

04 CUSTOM COLOUR MATCHING

Need a specific colour? We offer custom colour matching to ensure your entire project stays true to its intended palette -ensuring visual continuity, and creative control from frame to façade.
